Since its founding in 2021, the *AgeTech Academy* has been providing AgeTech education to individuals and organizations through online courses, workshops and live events.

In its original format, we were never able to meet the demand, and unfortunately had to turn down many applicants. We've spent the past few months figuring out the best way to make the AgeTech Academy more accessible, and decided to launch a membership.

Next month, the *AgeTech Academy* Membership will open its doors and welcome new members!

As a member, you will gain access to exclusive content such as on-demand courses, live AgeTech Briefings and Ask Me Anything sessions.

You'll also get to network with like-minded professionals and learn about new opportunities that might be relevant to you or your organization.

More surprises will be revealed after the official launch date, stay tuned!
